

DNC 60

The DNC 60 numerical control is intended specifically for sheet-metal bending.

According to the software installed, it will be used on synchronized or conventional press brakes with mechanical or hydraulic end stops.

The DNC 60 is a competitively-priced product in a robust panel-design construction. It is a high integration of functions fitted out with a vivid high-contrast monochrome screen and a simplified keyboard with large keys.

DNC 60 PS, PC, P

Easy Operating

- Comfortable
 - Large, vivid and high-contrast screen
 - Clear display of all the information the operator needs
 - Rapid data input thanks to the ergonomic keyboard with large keys
- User-friendly
 - Complete programming of parts from a single page
 - Intuitive and quick set-up of the machine thanks to direct access to set-up parameters in the *Easy Bend* page
 - Contextual help and warning pop-up
 - Simple pages

Better Bending

- Higher productivity thanks to easy and rapid modifications of existing products
- Very fine tuning thanks to extensive machine parameters
- Programs can be linked together to create a very high number of sequences

Powerful

- All basic functions available e.g.
 - External or internal flange dimension calculation
 - Automatic calculation of the top dead centre
 - Deep integration with safety systems (messages, popup)
- EC safety-cycle management
- Easy communication
 - Connection to your PC / notebook via RS 232 for comfortable software updating and data back-up
 - Back-up software included
- Over 20 languages available
